

**HERE'S A
QUICK GUIDE**

**TO EMPLOYEE
OWNERSHIP**

WHAT IS EMPLOYEE OWNERSHIP?

Helping employees own
the company they work for

Employee Ownership is a business model in which the employees of a business manage and own the very business they work for. Instead of traditional hierarchical structures, where ownership and decision-making are concentrated in the hands of the owner(s), employee ownership distributes ownership and influence among the employees.

We - Valloop - offer the added advantage of access to our capital, resources and knowledge.

Helping employees own
the company they work for

ABOUT VALLOOP

We established that the majority of the companies offering employee ownership services were aimed at the business owner. We wanted to change that and make the process more inclusive for all parties involved.

So, we developed a bespoke platform that supports and empowers employees to transition the company they work for to be employee owned.

And we called it... **The Valloop Exchange**

Valloop
=
The Value Loop
offering value
to everyone
involved.

Exchange
=
The Exchange
of trust, capital,
information
and future
prosperity.

And together

The Valloop Exchange = Empowering Employee Ownership

A man with a beard and a woman are standing in a music store, looking at a tablet together. The man is wearing a maroon sweater and the woman is wearing a blue plaid shirt. They are both smiling and appear to be in a collaborative discussion. In the background, there are shelves with vinyl records and books. In the foreground, there is a stack of papers or documents on a table.

THE PLATFORM

Our platform guides employees and business owners through the Employee Ownership process and establishes the most suitable option for all.

Everyone involved will work collaboratively in the platform to help transition the company to be employee owned.

Following discovery calls with relevant parties, to establish the company goals, expectations and whether the company is suitable for the Valloop process. You will then gain access to the platform and the journey to employee ownership begins.

Helping employees own
the company they work for
